Summary

Software Developer and 2026 Information Technology graduate with hands-on experience building client-facing applications using Java, Spring Boot, React.js, REST APIs, and MySQL. Experienced in backend development, database integration, authentication, API development, Docker, AWS deployment, testing, and AI-enabled applications. Strong foundation in OOP, DSA, DBMS, and collaborative software development.

Technical Skills

Languages: Java, JavaScript, SQL, C++
Backend: Spring Boot, Microservices, Spring MVC, Spring Security, Hibernate, REST APIs, Dependency Injection
Frontend: React.js, HTML5, CSS3, JavaScript, Tailwind CSS
Databases: MySQL, MongoDB
Cloud & DevOps: AWS, Docker, Linux, Git, GitHub
Tools: Maven, Postman, JUnit 5
Core CS: Object-Oriented Programming, Data Structures & Algorithms, DBMS

Education

SVKM's Institute of Technology **Aug 2022 – Jun 2026**
Bachelor of Technology in Information Technology | CGPA: 7.67/10

Rashtriya Jr. College, Sambhaji Nagar **2022**
Higher Secondary Certificate (12th) | 71.82%

Dr. K.P.M.V. School, Chalisgaon **2020**
Secondary School Certificate (10th) | 82.00%

Experience

Full Stack Developer Intern – Ezio Infotech Pvt. Ltd. **Feb 2026 – Aug 2026**

- Contributed to multiple client-facing full-stack applications using Java, Spring Boot, React.js, REST APIs, and databases across frontend, backend, integration, and deployment activities.
- Developed features for SocietyMS covering resident and flat management, society entry workflows, maintenance management, and payment-related processes.
- Integrated Google Cloud Vision with SocietyMS to support payment verification workflows using submitted payment evidence.
- Contributed to Tirumala Agro, a farmer-focused platform supporting agricultural information, consultancy, consultant communication, and agricultural equipment sales.
- Collaborated with the development team during implementation and project presentations and gained hands-on experience deploying applications on AWS.

Projects

FinTrack – AI-Based Smart Finance and Budgeting Platform | ***Java, Spring Boot, React.js, MySQL, NLP***

- Designed the backend using Spring Boot and REST APIs with MySQL for financial data management and retrieval.
- Implemented JWT-based authentication, role-based authorization, and exception handling for secure application access.
- Applied NLP concepts to financial data analysis to generate personalized financial insights.

TalentIQ – Intelligent Candidate Evaluation and Recruitment | ***MERN Stack, MongoDB, REST APIs, AI/NLP***

- Built an intelligent recruitment platform supporting resume parsing, skill extraction, candidate ranking, and AI-based proctored interviews.
- Designed a candidate ranking approach based on skills, experience, education, and job relevance.
- Integrated AI/NLP concepts for resume analysis, automated question generation, proctoring, and interview response evaluation.

Achievements, Research & Certifications

- **Research:** Co-authored a SCOPUS-indexed research paper on an AI-based finance platform (2025) and authored an Atlantis Press paper on TalentIQ: Intelligent Candidate Evaluation & Recruitment (2026).
- **Academic Achievement:** Ranked among the Top 10 students in B.Tech Information Technology.
- **Certification:** Programming Using Java – Infosys Springboard.
